Honorable Stanley J. Randall, Minister
Stuart W. Clarkson, Deputy Minister
Peter A. York, P.Eng., Director
Donald E. Holland, Deputy Director

Dec. 1966

FOREWORD

This booklet of trade statistics will acquaint the Ontario manufacturer with current opportunities to participate in the United Kingdom market.

In 1965, U.K. imports of Canadian commodities accounted for 8 per cent of its total merchandise imports. For Canada, this represented about 14 per cent of total exports. U.K. imports of fully manufactured articles was 39 per cent of total imports – an increase of 3 per cent over 1964. Of Canada's exports to the U.K., 40 per cent were fully manufactured – a decline of 2 per cent over 1964.

Part I of the booklet reports United Kingdom imports for the years 1964 and 1965 and the portion accounted for by imports from Canada. The data is taken from the United Nations' Department of Economic and Social Affairs reports which are compiled from information supplied by the U.K. The S.I.T.C. (Standard International Trade Classification) is a United Nations' reporting system and accounts for over 80 percent of all trading data from countries around the world, including Canada.

Part II of the booklet contains Dominion Bureau of Statistics data on Canadian exports to the U.K. of "End Products, Inedible." This D.B.S. classification covers fully manufactured products requiring no further fabrication before use.

In translating this information into an export program, the manufacturer is advised to use the varied services and background knowledge of the government agencies engaged in this specialized field.

The Ontario government, through its Trade and Industry Branch, maintains offices in London, England; Dusseldorf, West Germany; and Milan, Italy. The federal government, through its Department of Trade and Commerce, has many offices abroad, including London, Liverpool, Glasgow and Belfast.

INDEX

Part I

	Page
Major U.K. Imports and U.K. Imports From Canada	3
Food and Live Animals	3
Beverages and Tobacco	4
Crude Materials, Inedible, except Fuels	4
Mineral Fuels, Lubricants and Related Materials	5
Animal and Vegetable Oils and Fats	5
Chemicals	5
Manufactured Goods Classified Chiefly by Material	7
Machinery and Transport Equipment	8
Miscellaneous Manufactured Articles	9

Part II

Selected Canadian Exports to the U.K. of End Products, Inedible	11
